Butterfly Does Immense Damage to Alfalfa Fields of Different Western States.

STRIP LEAVES FROM PLANTS

Chickens, Turkeys and Many Birds Destroy Worms During Feeding Stage-Bollworm Devours Both Worms and Pupa.

(Prepared by the United States Depar "What a beautiful creature!" exclaimed a farm visitor, indicating a gorgeous yellow butterfly which had alighted upon a nearby shrub and now raised and lowered his black-edged wings in slow, graceful palpitations. The insect appeared to be the very spirit of the hot summer day; his colors were the colors and shades of brilliant sunshine and the deepest, blackest shadow, set in a delightful contrast; and its will was the will of the meadows beyond the garden, where host and guest had retired to enjoy

breeze that stirred the broad alfalfa A Parasite of the Alfalfa Caterpillar.

growers of Arizona and California thousands of the city children out terfly." into the fresh air and sunshine, if we had the price of that yellow fellow and his mate."

"How does he accomplish all this?" asked the interested listener. "It's a harsh indictment to lay against a creature so apparently lacking in malice. Tell me about him; where does he come from; how does he live, and what are his peculiarities?" The rancher rose, stepped through the hedge, and came back with a handful of alfalfa, freshly pulled from the
